CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York.

GENTLEMEN:—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and undiminished responsibility, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

Yours very respectfully,

THE DUTCHMAN'S STRIKE.

A German, called Jacob, who had lately arrived in this country, got a situation in a planeing mill at a salary of $10 per week. Returning home one evening with one of the young hands of the mill (whom he called John), he told him that he got $15 per week.

"Vot?" cried Jake, "you vas got got fifteen tollars a veek? Tunder und plitzen! I vas so olt like you a coube of dimes, un I get me $10. How dot vas."

"Well," replied John "if you don't get enough you strike the boss for more."

"Vot you say? strike the boss for more? you dink I vas got more hier vages uf I strike the boss ain'd id?"

"Yes, I think that you would," replied John

"All reid," said Jacob.

So on Monday morning Jacob went to work as usual; but instead of entering the shop he took up his station by the door, and as the proprietor came down the street, Jacob stepped out in front of him and struck him with all his force, felling him to the ground, saying at the same time:

"Dare, I vas strike you for more hier vages, don't id?"

The proprietor bawled "police" with all his might, which had the effect of bringing an officer on the ground, and Jacob was arraigned for assault and battery. When the Mayor asked him what he had to say, he replied:

"Vell, ton't ves could find me out vot de matter vas id ... me ... vat york ... so more vages higher. ... vas ... strike der poss he was come d sh ... striken him for dot vages higher, and now I vas got here for salt and battery, I don't guite understand me dot."

During the laugh which followed the German was informed by the mayor that when he wanted to strike again, not to make such a striking demand, and his employer withdrawing the charge he vas discharged.

THE STEREOTYPED SMILE.

Beware of man or woman with a fixed smile. Trust the most hideous scowler before the being who goes about with an angelic grin carefully exhibited to all eyes under any and every circumstance. It is not natural to smile perpetually, and no one ever assumes a mask without being conscious of a necessity for concealment. Don't misunderstand me. There are young women, and a few old men, who break out into a smile whenever they speak. These are not the people I mean. The smile of which I warned you is a motionless, hypocritical, fixed expression, which I have seen worn during a silent three hours journey by rail, without the slightest alteration—that sort of a smile which most misguided lady artists present upon their canvas when they delineate martyrs, saints and angels. The portrait of a lady has a different smile — the fashion-plate simper— which, though semi-idiotic is not dangerous. Persons of no penetration allude to the chronic smile as "so sweet," and any one capable of holding the muscles of the face under control, is generally able to squeal sweetly, or move quietly, and to use quiet language, measured tones, in moments of the greatest excitement, and so can place a better man or woman at great disadvantage, and appear injured and innocent when actually most guilty.

TO MAKE COFFEE.—For four cups of nicely flavored coffee put two table-spoon-fulls of the ground berries into your coffee pot, and moisten with cold water. Pour on this as much hot water as you desire in bulk of coffee. Removing the lid of the boiling tea-kettle on the fire immediately place your coffee-pot upon the open vessel in twenty minutes you can have a delicious cup of coffee, clear as amber, in which you have the full strength of the berry without the bitterness sometimes developed by boiling. It is well worth trying.

For a journey, the sole leather trunk is the best and the best that can be bought among them is the cheapest in the end. The purchaser has a trunk with the full thickness of the hide, which is a consideration in these days when baggage smashing has become such a success.

Newspaper borers must be invincible in Louisville. The *Courier Journal*, says: "Unmoved by the deadly whir of the buzz saw erected for his extermination, the fiend who drops in to wrestle with the exchanges now spends most of his time in the editorial rooms. A scheme is on foot to have him blown from the end of a cannon."

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation ... the world. The ... in the past is the party's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned and the American idea of an individual's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of ... naturalization ...

[illegible]

... portunities and ... profits of the two great sources of civilization

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot box, and therefore are entitled to the thanks of the nation

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to day on a new match to victory.

Ayer's
Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption,** cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs,** the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis,** when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young, or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, **Discolorations of the Skin, Humors** and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

MATCH-MAKING MAMMAS.

The "*marriage de convenance*" is just as much an institution here as in Europe and managing mammas are just as common. There is a lady well known in one of our cities who has married off a large family of daughters eligibly, and [illegible] herself openly on having performed a mother's duty. "Not one of them," says this frank woman, when speaking of her sons-in-law, "would have married a daughter of mine, if I had not brought it about by little dinners and adroit attentions, by making opportunities for intercourse, and—by putting it in their heads. And they are happy. I think the world would be much better off if the question of marriage were settled for people by any body but themselves."

But all young ladies have not such clever mammas; some must scheme and maneuvre for themselves. "What is the charm of the Clark girls?" asked a lady of a young man about town. "They are not pretty, or very intelligent, or fashionable, or rich, yet the young men frequent their house, and they have secured the three best matches in New York."

"Well," was the reply, after a moment's pondering, "they set down on a sofa well, they are always good natured, they are very sympathetic, they make you feel at home, they are womanly and full of tact; when they bid you good night it is with a gentle pressure of the hand which leads you to think that you have made an impression. They never allow their eyes to wander while you are talking to them."—*Lippincott's Magazine.*

THE LAST FOOTFALL.

With a calmness born of the wretchedest of heartaches we may whisper the "good bye." We may clasp the warm hand and kiss the dear lips very quietly. We are thankful for our own self control. The door clangs harshly to. Thank God! we say, this ordeal is over! There is a moment's silence. Then listen! A quick foot strikes the pavement and each receding step seems trampling out hope and happiness from the heart. On, on—faintly they go, and now, fainter ringing down the long street, to us like so many death knells. We strain every nerve to listen. Among the hundred foot-steps clattering along the busy streets we can single out the tread of those quick firm ones. They are almost beyond hearing now. Hark! It is the last step dying away in the distance. Gone! and we are alone. In life and love and laughter's stead, silence! We held fettered our tears and our sorrow until now, feeling proud that we could master our emotion so well—but with the echo of that last footfall the hardly forged chain snaps asunder, and we are the slaves of sorrow, crouching sting of her whiplash. All through the busy day, and in the quiet night time we seem to hear that eager tread. The steps seem to resolve themselves into these two words—"Never again!—Never again!" Is there a moment in this life sadder than that in which we catch the sound of the last footfall? That dreary echo, telling us but too truly that hope itself has perished!

STAR DEPTHS.

The mind of man utterly fails to realize the immensity of space, and no one unaccustomed to the use of the telescope can have any adequate idea of the difference presented by the heavens when viewed by the naked eye, even upon a clear night, and the scene which is disclosed to the eye and mind of the astronomer. How difficult it is to realize that each star in the solemn depths is a sun like our own by distances almost beyond the power of man to compute.

Only about three thousand stars can be distinctly seen and counted by the naked eye, while an ordinary telescope reveals the presence of something like three hundred and fifty thousand—Herschel's great eighteen inch instrument, it is estimated, shows one hundred and eighty millions, while the great Rosse telescope, by its vast penetrating power, is supposed to open up to our vision not less than seven hundred million. And yet when the whole heavens is swept by this telescope we have only penetrated a distance into space from our stand point on this globe which when compared to the immensity beyond is no more than the space occupied by the room where we write compared to the immensity of depth penetrated by the last named instrument.

The [illegible] [illegible] In 1871 the yield of the State, though [illegible] was of inferior quality. The present crop is said to be extremely fine.

It is now stated that the young lady who created an impression that she had flung herself off Niagara Falls for the love of George Clark, of Stratford, is alive and well.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied, despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen Grant's Presidency at the rate of one hundred millions of dollars a year, a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the party's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fatally demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance—"once a subject always a subject"—having at last through the efforts of the Republican party been abandoned and the American idea of an individual's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital and for labor, the creator of capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations [illegible] protection of the ballot box, and therefore are entitled to the thanks of the nation.

13. We denounce repudiation of the public debt in any form or disguise as a national crime, and we witness with pride the reduction of the principal of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction, and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of Ulysses S. Grant have commended him to the heart of the American people, and with him at our head we start to-day on a new march to victory.

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor **Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all **Alcoholic Stimulants**. They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE**, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by **Vitiated Blood**, which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, [illegible] upon the face of the earth [illegible] the presence of [illegible] healthy elements of the [illegible] diseased humors [illegible] living monsters of [illegible] worms like [illegible]

W. F. BALLARD,
Major Commanding Battallion.

JUDGE STALLO, of Cincinnati, says of Mr. Greeley's logic "He has a form of syllogistic reasoning entirely his own, his syllogism consisting of a broad assertion of the thing to be proved as the major premise, a ringing imprecation as the minor, and a bold charge of venality or idiocy against his antagonist as the conclusion."

THE New York Tribune says now that Mr. Kernan "sustained the war for the preservation of the Union." But in 1864 the Tribune said he was an "envenomed copperhead," that he "voted against most war measures, and when he did not venture to vote on that side, he generally dodged."

KERNER is making temperance speeches in one part of Illinois, and intemperance speeches in another part. He is about the finest specimen of an India-rubber politician that we have had in this section. But he can't stretch himself across the chasm of about 50,000 for Oglesby.—*St. Louis Democrat.*

HOW HAVE THE MIGHTY FALLEN.

The tidal wave has reached Vermillion county. In the Chicago *Times* of the 23d inst., will be seen an account of a meeting of Chappaquackers by the old wheel horse Democracy, Mr. John Donlon, of Danville, Ill., who is well known in Central Illinois, and is acknowledged as good authority, if not now, he certainly was in 1866 when the then grumblers, but now Greeleyites in our midst, were feasting Brick Pomeroy on dried oysters at their private residences in this city:

DANVILLE, Ill., Sept 17.—Permit me, for the first time this season, to trouble you with a communication. I feel it my duty to all citizens of this State who wish to perform an honest duty at the coming election, and I believe that all citizens, irrespective of party affiliation, are willing to perform what they consider correct for the continuance of a Democratic government in this country.

Yesterday the once Honorable Jas. C. Allen spoke to 145 mrle individuals, some from the other side of the State, near Indiana, and some boys. The actual count was 145, and if any person doubts this assertion I can prove it by a thoroughbred Democratic Greeleyite, who counted with me. Now, Mr. Editor, you and I, I think, can safely say that no man now living in this State has more ability than Jas. C. Allen. He knows how to make a Democratic speech. He tried to make one for Greeley yesterday, and failed. He would only say he would try him. The Democracy gave him the nomination for Governor of this State, and we gave him the nomination for Congressman vs. Logan, and I had the pleasure, as I considered it, to vote for him, both in the State convention that nominated him for both of the above-mentioned positions, and at the polls in my county on the respective days for the trial of his election. I still look upon him as one of the best political orators in our State. I yesterday sat and listened to him make, as he always can, what would be considered a good talk. But lo and behold! see him if you can as I saw him speaking to 145 men (and one-half of them Republican), after being dragged all the way from his home to this place by posters about two by three feet in size, thoroughly distributed all over the country, announcing his arrival in company with a fellow by the name of Bill O'Brien, that once disgraced our State by distributing blackguardism over it, as a seeker for the office of Congressman. His Irish dialect sounds very well for an Irishman (and I like it.) But when I compare that and the Presbyterian dialect they don't sound well together. I never did think that Irish blarney and Presbyterianism sounded well together. One may do well enough for shysterism, and the other will do to live and die by.

Yours, JOHN DONLON.

BUCKALEW'S case is briefly but effectually disposed of by the Philadelphia North American, in this remark addressed to the Greeleyites of the Keystone State: "You have now in the field as candidate for Governor of Pennsylvania, a man proven by the rebel archives to have been in secret conference with duly commissioned rebel emissaries in Canada, at the time he was himself bound by the oath he had taken as United States Senator, to support, maintain, defend and adhere to the Constitution, Government, laws and national arms of the United States Government.

THE *Inter-Ocean* thinks the Hon. F. Hassaurek, of Cincinnati, must be gifted with claravoyance, insomuch as it received from him a printed copy of his late speech in advance of its delivery, from which it appears that applause was given forty-four times, great applause three times, laughter seven times, cheers six times, etc., up to the number of seventy expressions of satisfaction. If this plan of Mr. Hassaurek's was original we might be inclined to agree with the *Inter-Ocean*, but he borrowed it from George Francis Train who has been playing the same game for a half dozen years.

RAILROAD TUNNEL.—The contract for a tunnel from Third to Ninth street, in St. Louis, under Washington avenue, as an outlet from the bridge, has been awarded to Wm. L. Krainka, for the sum of $788,704. The work will be commenced without delay, and will be pushed forward as rapidly as possible. It is expected that it will be completed within a year.

THE New York *Independent* says of General Dix:

His nomination is equivalent to his election, and that, too, by a large majority. There are thousands of war Democrats in the State whose natural place is with the Republican party, and who, under the leadership of General Dix, will this fall give it their cordial support. This we regard as settling the question for Mr Greeley, so far as New York is concerned.

GREELEY has a special Pullman palace car to haul his chasm in. Whereupon the St. Louis *Democrat* remarks, that "when Grant travels in a Pullman car the liberties of the country are in danger and despotism at our door."

HYPOCRISY.

DECATUR, ILL., Sept. 21, 1872.

MESSRS. EDITORS:—The consistency of the self styled reformers or Greeleyites recommends itself to the careful consideration of all voters at the coming elections. They cry out against fraud in the Republican party, when they are leagued together to practice it themselves. They charge the Republican party with the colonization of voters for the election of Gen. Grant, and are "caught in the attempt to carry the election by imported votes" themselves. They want civil service reform, and yet they are degrading it all the time. They are lightning on nepotism, and are found shoulder to shoulder in their efforts to get their friends into the best offices in the land. They have all along condemned the "franking privilege in the circulation of documents," and lately it has come to light that they have made use of this agency to a greater extent than ever known by any political party in the history of the country. Since the first of July they have sent out from Washington 1,333,000 documents under the frank of *reformers*, and at a cost of at least $50,000 to the government. This is the kind of reform this Greeleyite-Liberal Republican-Democratic coalition party wish the people to support this fall.

Gov. Brown, of Missouri, goes around over the country crying reform and economy, and pleading for peace, when it is a notorious fact that under the Republican rule, since the war in his State, the debt of the State was reduced twelve or thirteen million dollars, and since his inauguration the indebtedness of the State has been increased over a million of dollars. This is the game he plays—steals himself, or allows it to be done, and then accuses some Grant man in the State, who has no access to the treasury of the State, of doing the thieving. This is Greeley reform. If it is peace Gov. Brown wants, why in the name of justice and law does he not arrest some of the perpetrators of the recent outrages that have been committed in the southern and western portions of his own State? A number of murders and other minor outrages have been committed upon Republican citizens, and thus far no arrests have been made. If these scoundrels were to *accidentally kill* a sold-out Democrat, or a Liberal Greeleyite, would they not be arrested? Most assuredly. Why? That would be an outrage upon society, and the law must be vindicated.

Let Gov. Brown remain at home and see that the laws are respected and the *rights of all* protected, and then there will be some consistency to what he professes.—He says, again, if the colored people do not give up their separate organizations there will be a war of races, and they will be exterminated. What does he mean? Simply this and nothing more—that unless the colored people cease to vote the Republican ticket and join the Greeley party they shall be exterminated. Gov. Brown directly charges that "the Republican party are combining and consolidating the colored people into a separate organization for the purpose of opposing the white people, and taking away their rights," and reducing them as it were to a state of degradation. Gov. Brown knows this is an infamous falsehood. He knows, like every one else knows in the land, that it is the natural instinct of the colored man to love those who protect them best in their rights, and that liberty to them is as sweet as to the white man. Again, their good sense and keen distinction between Democracy and Republicanism will ever find them on the side of justice, reform, civilization and religion.

A REPUBLICAN.

THE AGE OF PAPER.

In Boston now they advertise paper suits of clothes at sixty-two and a half cents a suit. This is cheap enough, though if a person wearing one of them should get caught in the rain, we imagine he would feel still cheaper. They ought to be cool and comfortable, especially if they are made of brown wrapping paper, but they would hardly keep their shape with the thermometer at ninety-five and one hundred. We are not informed what kind of paper they are made of, but they might be the means of disseminating a cheap literature; one could wear a small volume, so that he that runs could read. It would be economical to have the suits printed on both sides, so that they could be turned the second day, and a person could in this way wear a serial through the week, "to be continued" being stamped on the coat tail. On Sunday he could put on good clothes, with a sermon, or religious extracts from the secular papers, printed on them. There is no end to the variety in costume that can be attained in the use of paper, or to the good that can be done. Business men will come down to their offices in the morning in a suit of the morning daily, cool and fresh, and sure that they have the latest, because the telegraphic news will be on their backs. They will thus be the means of spreading information wherever they go to non-subscribers. Summer clothing will not hereafter get out style, but it will get out of date, for a man's old suit will be at once recognized. Instead of being pointed at as wearing old clothes, he will be noted as wearing old news. We are evidently only just in the beginning of our discoveries of the use of paper.—*Christian Union.*

AN exchange says: "The straight-out Democrats of Bureau county, who are opposed to the Dolly Varden ticket already in the field, have issued a call for a convention at Princeton, on the 27th inst., to appoint a committee and nominate a Democratic county ticket. The call is signed by 292 Democrats of the county."

THE success that attended Johnson's swinging around the circle in 1866 has encouraged Greeley to attempt the same thing.

ANOTHER MURDER IN CHICAGO.

The Great Fulton County Fair.

FROM ILLINOIS.

CHICAGO, Sept. 24.—Another cold blooded and unprovoked murder was committed here last night. James P. McWilliams, a young man about 18 years of age, employed as a compositor in the Times office, was shot and almost instantly killed, while walking along Clinton near Adam St., about midnight, with a companion, by one of four men to whom he had spoken civilly, and with whom they had no quarrel. The assassin and his companions escaped, and up to an early hour this morning they had eluded detection or arrest.

LATER.—Six stone-cutters have been arrested on suspicion of being the murderers of McWilliams last night. Feeling runs very high over the tragedy. The name of the young man charged with the murder of McWilliams, last night, is Thomas Collins.

CANTON, ILL., Sept. 24.—The Fulton County Fair opened this morning with every prospect of success. Up to seven o'clock 2,000 entries had been made. The rain this morning has put the track and grounds in splendid order. No dust, no mud.

The floral department is rapidly filling up, and the display is very fine.—The grain and vegetable department is unusually full. In the poultry department there are more entries than usual. Also in the cattle department there are some of the best herds in the State here. Hogs are also in great abundance, and, if possible, finer than usual. The horse show is fair, and includes some of the very best stock in the West. In nearly every department the display is equal to that of any preceding year. The citizens have made arrangements to extend accommodation for visitors, so that less trouble than usual may be expected on that score.

WASHINGTON, D. C., Sept. 24.—The Greeley managers here have news of a very lively time in the New York committee when Mr. Greeley gave the members to understand that he was going West. It now appears that the question was debated with much bitterness, and that nearly all of Mr. Greeley's personal friends who are attempting to manage the campaign for him were earnestly and most decidedly in opposition to his Western trip. On the other hand, it was a matter of comment among the class of opponents to the scheme, that those who made themselves most prominent in urging Greeley to make the journey were men who of late have been suspected of secretly desiring Mr. Greeley's defeat. To this latter class Greeley listened, and in spite of all that the others could do he declared that he would go, and intimated that he knew as much about what was good policy and proper management in the campaign as any one could tell him. His idea of the trip seemed to be that he would, through the medium of the Associated Press, which would, of course, be open to him, explain, not only to his audiences, but to the entire country, some matters that, as now before the country, were an injury to his prospects, and the two principal matters in mind to be smoothed over were his early secession ideas and his views in regard to currency and specie payment, which were doing him much damage among business men.

His attack on soldiers in Pittsburg is regarded among his chief managers in New York as, thus far, the greatest misfortune of the campaign, and the attempt at Cincinnati to explain his views about secession is little better.—One of Greeley's reasons for ignoring the advice of some friends, who insisted that he should not go West, was that he followed their commands and came out of Maine and out of New England much sooner than he desired, and he now feels that if he had been permitted to go over that State more thoroughly the result would have been much more favorable to his cause.

The great problem among his shrewdest friends in New York is, how to get him home the quickest, and keep him there, and keep him still the longest.—It is understood that there was only one majority in the New York committee in favor of Mr. Greeley's trip. Mr. Greeley's endorsement of the Credit Mobilier slander in his Indianapolis speech, has recalled here, this evening, his connection with one of the most extensive subsidy schemes ever pressed upon Congress. It was known as the Mediterranean and Oriental Steam Navigation Company of New York; was incorporated by that State, and sought a charter and subsidy of bonds, lands and contracts from Congress in 1869. Mr. Greeley was one of the corporators, a commissioner, and earnest supporter of the scheme.

FROM PENNSYLVANIA.

TITUSVILLE, Pa., Sept. 24.—The movement towards shutting down wells, and the suspension of drilling, so as to decrease the production of petroleum, which was agitated some weeks ago, and proved unsuccessful, was revived. Meetings are being held, resolutions are being passed, and organizations formed to this end. It it thought it will be successful. The production has reached over 18,000 barrels per day and increasing. This excessive supply has caused prices to decline so low that producing is unprofitable. To exchange the prices this movement is made. A large number of producing wells are already shut down.

FROM NEW YORK.

ALBANY, Sept. 24—At the National Convention of Machinists and blacksmiths in this city to-day, the following resolution was adopted:

Resolved, That some means be taken to secure the promotion of our members, so all may have an opportunity of a full and thorough theoretical and practical knowledge of our profession, and thereby raise the standard of intelligence among our brethren to secure a greater proficiency in every branch of the profession.

FROM OHIO.

CLEAVLAND, Sept. 24.—Horace Greeley and party arrived here this evening at 9:20 from Sandusky. They were received at the depot by the Greeley clubs of the city and escorted to Monumental Park, where Mr. Greeley and Gov. Walker of Virginia, addressed a large and enthusiastic meeting.

IN speaking of the progress of the campaign in Southern Illinois, the *New Era*, of Carbondale, says:

Railroad Commissioner and would-be-Governor Kœrner, during his recent tour through this (Jackson) and adjoining counties, met with a cool reception; indeed, we believe that in this county alone he would have received a score more votes had he staid at home. His meeting in DuQuoin was a glorious fizzle, and so disheartened him, that old office hunter as he is, he could not utter his abuse of Logan with half the vim he did in Murphysboro. Col. Don Morrison, who accompanied him, stirred up the handful of mourners who were present, and when he concluded proposed "three cheers for Greeley and Brown." About twenty-five men slowly swung their hats and gasped a faint "rah;" but it was so dismal that Morrison's ire was aroused, and in most insulting tones he cried out. "You buggars! If you don't vote any better than you cheer, we won't elect many in this part of the State this fall!" You are right for once, Morison; your friends vote just about as enthusiastically as they cheer, and the result will be you "won't elect many in this part of the State this fall."

THE St. Louis *Globe* remarks that Greeley has gone to Kentucky in the desperate hope of carrying that State by his own personal magnetism. Oregon gone, North Carolina gone, West Virginia, Vermont, Maine, all gone, and Kentucky only remains. "Joseph is not, and Simeon is not, and now they will take Benjamin away."

"IF anybody attempts to haul down the American flag, bail him on the spot."—H. G.

ILLINOIS Republicans are now justly confident of victory. General confidence, however, often begets a general apathy and disaster. If every Republican in the State does his duty, Illinois will vote overwhelmingly for the right. But the Republican who excludes himself from effort by reflecting that "the cause is safe," commits a prodigious mistake. There must be energy, self-sacrifice and anxious and determined work to warrant the confidence of triumph. The voters who can be influenced must not be left to the busy efforts and endless devices of the enemy who are diligently plying falsehood and slander and every available trick, in quiet ways, and in least suspected quarters, to win votes. The Grant clubs should not be content to jubilate; they must do systematic and searching work in every school district. With faithful effort the Democrats and Greeleyites will be buried beyond hope of resurrection in November; but let our friends avoid false security.

THE DIFFERENCE.

The great difference between the position of the Republicans and the Greeleyites is this—the former have to prepare for fresh victories, the latter are wholly occupied in explaining their repeated defeats. There can be no doubt in the mind of any intelligent Democrat that (as we asserted some time ago) the Democratic party would have stood a far better chance for success had it chosen one of its own leaders for its candidate. With a renegade at its head it only loses a large proportion of its own votes without drawing sufficient men from the Republicans to make up for that defection. This is conclusively shown by the result in Vermont and Maine. Greeley is really a source of weakness to the Democrats. He was repudiated in Maine for the same reason he is rejected the country over by the Republican party, namely because he has betrayed its principles. Our party early learned to use men only to promote what it deemed sound political ends. It has made and unmade in this process many reputations. Mr. Greeley was trusted and honored when he was thought to be faithful, but when he turns towards the enemy few follow him. All this bullaballoo about his strength has been sheer brag of which the unerring test of the ballot-box has proved the hollowness.

From this day on to November the Republican party may march with the confidence of victory, while the Greeleyites must work under the prospect of inevitable defeat. Nevertheless the struggle, on our part, will not be relaxed. Every thing that can honorably be done to make the triumph in November not only sure but overwhelming, will be done. But there is no longer any room to doubt that the confidence of the people in the party is unshaken, and that the advance posts of freedom and equality have been so industriously secured in these last twelve years, that they are not now to be abandoned to the enemy.

ILLINOIS CONFERENCE.

Forty-Ninth Session.

AFTERNOON SESSION.

Conference met at 2 P. M.

Devotional exercises were conducted by Rev S Shinn.

The Bishop appointed Rev Wm Stevenson to preside.

The committee on temperance reported resolutions which deprecate the pandering to distilleries and saloon keepers, and thanked the legislature for passing and Gov Palmer for signing the bill, and for his adherence to the liquor law.

The resolutions were discussed at some length.

Resolutions of thanks to the legislature for passing, and to Gov Palmer for signing and for resisting the attempts to repeal the liquor law, and we pledge our support to the measure; deprecates and condemns the manufacture and use of domestic wines as a beverage, and pronounces it sinful, and should be abstained from.

The above resolutions were adopted.

A resolution was passed that the ministers preach frequently on the subject of temperance, and that a temperance society be organized in each Sunday School of the Conference.

The periodical committee offered a resolution welcoming the newly elected editors of the church periodicals among us, and that Dr. Fry, editor of the *Central Christian Advocate*, St. Louis, was the right man in the right place, which was adopted.

Rev J G Little read a report of the Illinois Wesleyan University of Bloomington; also, a report of Illinois Wesleyan Female College, both of which were adopted.

A report of Garrett Biblical Institute, Evanston, was read and adopted.

Rev J W Noble offered the following resolutions, which were adopted:

Resolved, That whenever one of our number dies, we will contribute, as a conference, the sum of $30 for a suitable tomb stone; or, if the relatives wish a more costly one, we will contribute this sum to join with them.

Resolved, That the succeeding preacher and the presiding elder be a committee to procure and have erected such tombstone, and bring the bill to the following conference, when we will pay it.

The resolutions were lost.

Revs James Leaton, G H Stevenson and James Finley were appointed conference visitors to Garrett Biblical Institute.

Revs. W McK McElfresh, W N McElroy, W H McVey, E D Walker, W S Prentice and R N Davies were appointed Conference visitors to the Illinois Wesleyan University, Bloomington.

Revs. W F Short, E Cranston, A L McCoy, J Leaton and W J Rutledge were appointed Conference visitors to the Illinois Female College, Jacksonville.

A resolution was offered requesting the appointment of Rev. R W Travis as solicitting agent of the Illinois Wesleyan University, which was adopted.

Rev W J Rutledge submitted the report of the committee on the Sabbath, which was adopted.

Rev. S Shinn offered the following resolution which was adopted:

Resolved, That we deprecate the use of tobacco in any of the forms of chewing, smoking, snuffing or dipping by any of our people; and especially by any of our preachers, we earnestly entreat all such to abstain from its use at once and forever.

S SHINN,
C T HICOX.

A report was offered referring to the title of certain church property, which was investigated by Judge Thomas and J R Gorin.

The committee on Church extension ordered the amount of money in the hands of the Conference Treasurer, $1,037 40, sent to the Treasurer of the Church Extension Society, Philadelphia.

The following officers of the Conference Church Extension Society were elected:

President—Rev F W Phillips;
Vice President—W Wickersham, Esq., Springfield.
Corresponding Secretary—Rev J L Crane.
Recording Secretary—N W Matheny.
Treasurer—J A Chestnut.
Managers—Rev W F Short, Rev F W Phillips, W N Coler, Esq., P G Gillett, Esq., and J N Fullerwider.

The Conference Stewards made a report on necessitous cases.

The money distributed is what is termed the fifth collection. The following is the aggregate amount: $3,194 18.

One from each district was appointed as a committee on Conference Claimants next year.

The following resolutions were offered and adopted:

Resolved, That the thanks of this Conference are due to the editors of the DAILY REPUBLICAN, of this city, for the courteous mention of our session and the full reports of its proceedings, and we hereby tender to these gentlemen an acknowledgment of the favor shown us, and express a wish that their paper may receive the full patronage which its ability and enterprise warrant them to expect.

N P HEATH,
J G LITTLE,
J LEATON.

Resolved, That the thanks of the members of the Illinois Conference be tendered to the editor of the Daily *Magnet* for his courteous mention from day to day of the doings of the Conference.

GEO J BARRETT,
N P HEATH.

EVENING SESSION.

Devotional exercises were conducted by Rev O S Munsell.

A collection was taken to defray the expenses of the Secretaryship of the conference.

Also a collection for the support of Miss Beulah, the blind daughter of Rev Mr Beulah, who was killed by rebels in the south.

A report was read referring to the transfer of Quincy College property from private parties to Bishop Simpson and others, trustees of Quincy College, and that it be transferred to the Illinois Wesleyan University, provided said college will liquidate the debts of said college.

Rev George Montgomery located at his own request.

Rev B Barklow was granted a superannuated relation.

Rev C D Jaques was granted a superannuated relation.

A resolution was offered and adopted, returning thanks to Revs J H Noble and H O Hoffman, for their efficiency in entertaining the conference.

The following persons were admitted on trial:

W H DeMotte, Joseph Winterbottom, Samuel T Hawkins, Robert A Hutchinson, John Ingram J W Anderson, Nathaniel H Kane, Michael Finity, Wm. H Musgrove, Aquilla D McElfresh, Uriah Warrington, Hugh C Turner, Benj. F January, Marshal M Cooper, Isaac N Bandy, Albert H Alkine, John Dugan, Wm R Carr, John W Crane, James A Barkes, and Geo Spencer.

The conference returned thanks to W S Hooper and his assistants, for their faithful labors, which was expressed by a rising vote.

The several committees on examination for next year were appointed.

C D James was granted a superannuated relation.

A vote of thanks was tendered to the citizens of Decatur for their hospitality.

Rev N P Heath was instructed by the Bishop to conduct religious worship before reading the appointments.

The Bishop expressed his thanks to the conference for their kindness and courtesy, also to the citizens of Decatur for their courtesy to the preachers and their wives, in providing entertainment for them.

The following resolution was offered:

Resolved, That the thanks of this conference are due and are hereby tendered to Bishop Bowman for the very satisfactory manner in which he has performed his Episcopal duties during the present session, and that we shall cherish the memory of his pleasant, social intercourse; of his prompt and impartial ruling in the chair; of his highly instructive and eloquent preaching; as connected with one of the most pleasant sessions of our conference, and that in the future we will hail with pleasure the services of the Episcopal College that shall assign him the position of our presiding officer.

W. M. STEVENSON,
A. S. McCOY.

After the reading of the appointments (which will be found in another part of this paper) the long metre doxology was sung, the benediction pronounced by the Bishop, and the Conference adjourned.

It seems to be necessary to impart the information to the Greeley orators and editors that the "disfranchised South" they are making such a bother about consists of about two hundred and fifty gentlemen who held federal offices before the war. And these are now allowed to vote, but are not allowed to hold office. The Democratic party were itself out in laboring to secure "the rights" of the 200,000 slaveholders who stirred up the rebellion, and it is hardly worth while for Mr. Greeley and Mr. Schurz to rend their immaculate linen in their frantic efforts to get a small handfull of Southerners into office.

A curious case of poisoning occurred in New York lately. A man, on lighting a match, let the head, or phosphoric part, fall on his finger. It fell, however, on a cut, and, though he immediately brushed it off, the finger began to swell rapidly, and a doctor who was summoned found the blood had been poisoned. Immediate amputation of the hand was the only remedy.

Internal Revenue Receipts for September.

INTERESTING FOREIGN SUMMARY.

The Cholera on the Danube.

FROM WASHINGTON.

WASHINGTON, Sept. 23.—The receipts of internal revenue so far this month amount to $7,833,000, indicating a total of about ten millions for the month. This is a falling off from $14,000,000 in July and $11,000,000 in August. Important reductions of the machinery of the Revenue Bureau are likely to be made at an early day, among which will be the consolidation of districts, the discharge of collectors and assessors, and other officials, and a consequent lessening of all contingent expenses. The commissioner is, moreover, known to be favorable to the system of stamp taxes covering all the taxes now collected, and may recommend in its forthcoming annual report legislation which, by the substitution of the stamp system, will furthermore improve, cheapen and simplify the collection of the revenue.

The Comptroller of the currency will take no action at present in consequence of Saturday's statement of the New York banks, showing a *deficiency* of the legal tender reserve. That this state of things existed on Saturday is no proof nor certain indication that it exists today, or that the reserve may not now be much above the amount required. The complete examination of the accounts of Johnson, the absconded stamp agent of the New York sub-Treasury shows his defalcation to be one hundred and eighty-five thousand dollars, the whole sum having been taken from the proceeds of stamps sold and falsely accounted for during the past month. Johnson had received a large quantity of stamps, which he had not entered upon his books, thus making his account correct, and requiring an actual count to determine what stealing had been going on. The remainder of the investigation showed everything correct in all other departments of the sub-Treasury, and honesty and fidelity among all officials.

Attorney General Williams leaves for Pittsburg on Friday, and will speak next week in Ohio.

J. W. Forney starts for Ohio to-day, and will speak at Toledo on Wednesday, the 25th; at Bryan on the 26th; Fremont on the 27th, and Norwalk on the 28th. On the 29th and 30th insts. and on the 2d prox. he will speak in Indiana, his appointments to be fixed by the Republican State Committee.

FROM INDIANA.

INDIANAPOLIS, Sept. 23.—Horace Greeley was met in Louisville by the reception committee from Indianapolis and others. At eight o'clock this morning he crossed the river to Jeffersonville, where he met with an enthusiastic reception and made a speech of half an hour's length in response to a pressing call from an assemblage of a thousand people, who turned out to see him.

The train was late in starting, and ran very rapidly, making few steps. All along the line, at the different stations the news of his coming had preceded him, and people turned out in large numbers to receive him. At Columbus the people were out en masse, and there he made a short speech. At Edinburg a salute was fired, and an eager crowd was present. The train only halted a moment at Franklin, where there was a large turn out, and Mr. Greeley spoke a few words. Passing through Greenwood and Southport, where were also crowds of people expecting to see him, he arrived here, where a very hearty and enthusiastic greeting was accorded to him. He was escorted to the Bates House, where a reception took place at four o'clock. During the afternoon he accepted an invitation from President Wright, on behalf of the Board of Trade, and was received after three o'clock in the Chamber of Commerce.

To-night an immense torch-light procession escorted Mr. Greeley to the Capitol grounds, where he delivered quite a lengthy speech. The crowd was very great, and many say it was the largest ever witnessed. The jam was such that many were unable to get in hearing distance.

DUBUQUE, Sept. 23.—A tremendous storm visited this city last night, lasting from 9 to 1 o'clock. Lightning and thunder were incessant, and the whole city was roused—no one slept or could sleep. A number of places were struck, but no damage reported, except the burning of a car used as a telegraph station at Harper's Ferry.

FROM ILLINOIS.

JACKSONVILLE, Ill., Sept. 23.—A fearful wind storm swept over Jacksonville yesterday evening at one o'clock, prostrating fruit and ornamental trees, unroofing Keemen's carriage factory, blowing down chimneys, and doing other damage.

Captain Brearly, of this city, who has, in company with General Lippincott, been stumping the Ninth and Tenth Congressional districts for the last two weeks, reached here Saturday night, and reports that throughout those districts Greeleyism is rapidly on the wane, and Grant and Wilson steadily gaining in favor and popularity with the thinking, solid masses.

FOREIGN NEWS.

LISBON, Sept. 23.—The Portuguese government has granted a concession to Baron Mana to enable him to proceed with the construction of the telegraph cable between Portugal and Brazil.

Advices received to-day from Bucharest, in Roumania, give later particulars of the dreadful ravages of the cholera in the Danubian Principalities. There is no abatement to the spread of the epidemic, and it is estimated that over 10,000 persons have already died from the disease. The nature of the plague is epidemic in the extreme, and it is feared will spread over the entire country. Large numbers of physicians, Sisters of Charity, and other persons disposed to minister to the afflicted, have arrived at Bucharest from Ponersburg and other neighboring cities.—Great impetus is given to the disease in Bucharest from the swampy nature of the location and filthy condition of the city itself. The disease has been most virulent in those sections of the city where filthy mud-holes abound, hundreds of which are completely depopulated. In many instances the inmates are dying for want of care. A letter received to-day by your correspondent, presents a frightful picture of the condition of affairs.

LONDON, Sept. 23.—Snow fell at Sheffield yesterday.

Caleb Cushing left Nice for Bordeaux yesterday, and soon sails from Havre for America.

Sumner has gone to Paris for a few weeks, and will return to America in November.

Dispatches from Shanghai state that several shocks of an earthquake have been felt there, but they were not attended with any serious disaster. There was considerable excitement among the populace, but their fears were soon quieted.

A NEW religious sect, known as the "Amanians," and numbering about fifteen hundred, has sprung up in Iowa. This new community is composed entirely of Germans. They have purchased about 30,000 acres of land on the line of the Rock Island Railroad and have built several mills and manufactories. All property is held in common, and the affairs of the society managed by fifteen "fathers." Each person is allowed to draw a certain amount from the co-operative stores yearly, and no member is given any wages or any money for personal expenses. Every day religious services are held. We do not learn what the theological belief of the sect is; but, inasmuch as they are noted for their honesty and fair dealing, we judge that it cannot be far out of the way. Marriage is not forbidden, but it is not encouraged; and the community is not likely, therefore to perpetuate itself.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the **MOST PERFECT**, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

The Daily Republican.

DECATUR, ILLINOIS:

Wednesday Evening, Sept. 25

THE DAILY REPUBLICAN will be delivered to subscribers in any part of the city, at *Twenty Cents per Week.*

Local Notices will be inserted at *Ten Cents* per line for the first insertion, and five cents per line for each subsequent insertion. Rates for time advertisements will be furnished upon application at the office.

TO DAILY SUBSCRIBERS.

Subscriptions to the DAILY REPUBLICAN will be collected every Saturday, at the places where the paper is delivered, unless otherwise ordered.

IMPORTANT.

We would be much obliged if our subscribers would inform the carrier at what particular place they desire their papers to be left.

CITY DEPARTMENT.

...Don't light the gas to-night.

...Bright is squeezing the juice out of the fruitful grape.

...The passenger train from the East is abouth three hours late to-day.

...The St. Nicholas omnibus has made the trip from the depot to the hotel and returned in ten minutes.

...We have heard of an accident caused by a railroad train, but we will wait for further particulars.

...Copies of yesterday's REPUBLICAN containing the appointments of the Conference, can be had by calling at this office.

...The ladies of the M. E. Church at Maroa, will give a sociable to-morrow evening, at the residence of Mrs. W. H. Austin.

...The city authorities have ordered a policeman to be at the depot on the arrival of each passenger train, That's right.

...Rev. M. Eaur was appointed to Wapella instead of M. Powers, as printed in the list appointments.

...C. B. Cole, Esq., has sold his handsome pony to Mayor Shillabarger for a reasonable consideration.

...The High School bell has at last arrived, and is at present at the freight depot. It is said to weigh 1600 pounds.

...Last night the citizens of Decatur were deprived of gas light and the light of the countenances of many clergymen.

...It is reported the T., W. & W. Railroad will soon put on the Cincinnati express, a train which was discontinued when the travel fell off in the summer.

...Rev. Ira Emerson says the people round about Farmer City are some on big dinners. He expects to take up his abode there next week.

...Albert Emerson, Esq., a former well-known citizen of this county, has been nominated by the Republicans for County Superintendent of Schools, at Wichita, Kansas.

...A new Presiding Elder's District was created at the Conference just closed, called Pana district, with Rev. C. P. Baldwin, formerly of the Decatur district, as Presiding Elder.

...Many persons have examined a pair of glasses that we are compelled to wear temporarily, and all pronounce them to be the clearest and most agreeable to the eyes of any they have ever seen. Abbott keeps them.

...Rev. W. S. Prentice, Presiding Elder of Decatur district, is in the city regulating his preachers and familiarizing himself with the good people of this city. Dr. Prentice is an able preacher.

...A farmer, with a two horse wagon, came near running over a lady who was carrying a babe in her arms this forenoon, on one of the West Main street crossings. Hold tight reins at the crossings.

...At the political meeting in the school house at Forsyth last night a zealous friend of the cause of Liberalism interrupted Mr. Buckingham by saying out loud in meeting that he "came to hear about Greeley; can't you talk about him," which enthused Buckingham, and he made a good speech.

...As we could not get a correct copy of the list of appointments, we relied on the list jotted down as the Bishop read them, and Lovington was omitted from the Decatur district. Rev. I. N. Bundy was appointed to that place.

...We think Decatur ought to have a humane committee to prevent cruelty to animals. Other towns of smaller dimensions have them. Men come to town and hitch their horses and mules, and let them stand all day and a portion of the night without food or water. Such fellows get drunk, as a matter of course.

...In addition to the first premium in the sweepstakes for bulls, at the State Fair, awarded to "Baron Booth," imported and owned by J. H. Pickrell, of this county, Mr. P. took the following premiums:

Best cow, 3 years old and under 4 years, "Loman Hill," 1st premium.

Best cow over 4 years old, 2d premium.

Best heifer, one year and under two years, 1st premium.

...A company of German Tanners was formed at Springfield on Monday evening. The muster roll shows 140 names—all voters. It is expected that over two hundred members will be had before another week. And yet we are told that there are "only eleven Grant Germans in Sangamon county."

...From the *Magnet* we learn that an important agreement has been entered into between the Paris & Decatur and Mattoon, Sullivan & Decatur railroad companies, by which both roads are to come in on the same track from Mt. Zion. The track is to intersect the Illinois Central about a half mile below the Sangamon bridge. From there the trains of both roads will come up on the Central. The roads are to be completed by the 1st of December.

The Champaign, Monticello & Decatur railroad will also be completed to this city at an early day.

...Dr. J. H. Beidler, of Mt. Pulaski, called at our sanctum to-day. He is making an effort to have the Republicans of this city present at the great mass meeting at Mt. Pulaski on the 5th of October, at which Hon. John A. Logan will speak.—Dr. Beidler has always been a Democrat, but the nomination of Horace Greeley was too much for him, and now his text is: "How can a Democrat go for Greeley?" The Doctor will vote for Grant.

...The officiary of the First M. E. Church have leased the house of John Dunn on West Main street, between Edward and College streets, which is to be repaired and fitted up in good style, to be occupied by Rev. N. P. Heath.

Attempted Highway Robbery.—About quarter past eight o'clock last night as Mr. J. W. Shafford was going from his home to his office at the depot, when on Eldorado street, nearly opposite the site of the old City Hotel, he was attacked by two ruffians who were masked. They came out from behind an old stable in that vicinity and seized hold of Mr. Shafford, putting a sponge to his mouth to prevent him from giving an alarm while they went through his pocket; but they obtained nothing of value, except his hat! Fortunately, just before Mr. S. left his home on William street, he threw his pocket-book, containing $70, to his wife, who was lying in bed, being unwell; he also left his watch at home. Before he could give the alarm after the sponge had been removed from his mouth, the assailants had fled.

The attack on Mr. Shafford was probably encouraged by the fact that in his position he is often possessed with a considerable amount of money. Highway robbery in this city is on the increase. The attack on Mr. Bramble a few weeks since was similar to this one. It is hoped that these desperadoes will be arrested and made examples of, which will to a certain extent stop these lawless and fiendish attacks.

Would it not be well that extra policemen be appointed by the Mayor during the absence of gas light upon our streets?

They were Three in All.—Last night we accidentally fell in company with three gentlemen who are zealous in their efforts to place Mr. Greeley in the Presidential chair, viz: Hon. I. A. Buckingham, Lawyer Eldridge and Prof. O. F. McKim. These orators got off the train at Forsyth. Flaming announcements of their coming did not effect even the organization of a reception committee of one. No music greeted their ears—no shouts for Greeley were heard. A great mass meeting, great enthusiasm—without the masses and with no one to enthuse—the speakers stood alone, and when asked to explain about the reception committee, Mr. Buckingham replied that the speakers were not expected on that train. But it is fair to presume that Buckingham made a good speech, as usual.

Mass Meeting.—The Tanners were out last night, and Blue Mound was in her glory. Hon. W. T. Moffett and L. F. Muzzy, Esq., made speeches in a large hall that was arranged for the puspose. After listening to good speeches the crowd dispersed by throwing fire balls high in the air.

An Owner Wanted.—A full fledged bustle, with springs and straps all complete, was picked up from the pavement yesterday afternoon. Some lady from abroad must have dropped it, as our ladies don't wear such things. Of course not.—They wear Harper's Bazaar, so as always to be in fashion.

Welcome.—The new pastors of the First M. E. Church and Stapp's Chapel, Revs. N. P. Heath, formerly of the Centenary M. E. Church, Jacksonville, and Rev. Wm. Stevenson, formerly of Carlinville, are welcomed by the people. It is gratifying to know that that the Methodist pulpits of this city have been supplied with men who are able and acceptable preachers. Neither are they lacking in their social and business qualifications. We presume they will fill their respective pulpits next Sunday.

Attention, Co. B.—All members of company B, Tanners, are requested to meet at their headquarters on Merchant street, to-morrow, Thursday evening, Sept. 26th, for drill.

Struck by Ligtning.—A hay stack at Niantic was struck by lightning, which was set on fire and totally destroyed; the fence in the vicinity of the stack was also burned, last night.

Meeting at Mt. Zion.—Last night C. C. McComas, Esq., made a political speech at Mt. Zion to a large audience.—The people in that vicinity are unanimous for the election of Grant and Wilson.

Personal.—Mrs. W. Merrill returned from the East last night, which accounts for the presence of Wm. Merrill in this city yesterday.

Grand Rally.—The mounted Tanners of this city, and all others who can procure horses, are requested to be present at the meeting at Macon to-morrow night, at which Gen. J. H. Moore will address the people. Extensive arrangements have been made for the occasion.

THE Hon. Sidney Breese, one of the Judges of the Supreme court of Illinois, heads the ticket of the straight-out Democrats of this state. Mr. Breese is one of the most generally respected men in the state, and, while Oglesby is certain to get a majority of the people's votes, the remaining vote will tend toward Breese rather than Koerner.

THE Dutch families among the Catskills are said to have the fashion of preparing their own grave clothes. As there are yet several weeks before November, we commend this idea to the Greeley managers.

To the Voters of Macon and DeWitt:—I am an independent People's Candidate for the Legislature at the coming election. For particulars and reasons, see the Pamphlet—Political Facts and Astonishing Figures for the People—to be had at the book stores, and at the Agricultural Store west of the new square. The Party Candidates are invitep, at any time and place they may mention, to discuss in public the following resolution:

Resolved, That the political parties have been a great damage to this country, and now are only striving for "victory and the spoils," regardless of the interests of the people.

C. W. AIKIN.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the MOST PERFECT, natural artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION. None genuine unless bearing their trade mark stamped on every frame.

CITY DEPARTMENT.

...Gents ... is here, and we are nightly looking for a Frost.

...Several new buildings are being built in various localities in the city.

...W. B. Chambers and W. M. Boyd left at noon to-day to visit the Cincinnati Exposition.

...You cannot expect to do much business this fall unless you advertise in the DAILY REPUBLICAN.

...Mr. J. H. Pickrell's herd of short-horns is on exhibition at the Sangamon county fair this week.

...The preachers and their families who stopped at Priest's Hotel say that it is not surpassed in Central Illinois.

...The many strangers who have been welcomed to this city during the past few days were favorably impressed with the courtesy of the citizens and the business like appearance of Decatur.

...It is said that a gentleman in this city made an effort to hire boys at 25 cents apiece to attend the meeting of the White Knights last evening.

...To night our streets will not be illuminated by the friendly gas light. Workmen began this morning to pump the water out of the huge tank at the gas works, and whatever light we get for a few nights will come from the redolent coal-oil lamp or the greasy candle, though Mr. Butman, the Superintendent of the gas works, informs us that he will probably be able to furnish gas in limited quantities to buildings near the works. The repairs to be made at the works will not be completed for a week or ten days.

To the Voters of Macon and De-Witt:—I am an independent People's Candidate for the Legislature at the coming election. For particulars and reasons, see the Pamphlet—Political Facts and Astonishing Figures for the People—to be had at the book stores, and at the Agricultural Store west of the new square. The Party Candidates are invited, at any time and place they may mention, to discuss in public the following resolution:

Resolved, That the political parties have been a great damage to this country, and now are only striving for "victory and the spoils," regardless of the interests of the people.

Ayer's

Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

All their styles, peculiarities of construction and various improvements have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over Strung Piano system introduced by Steinway & Sons, the fact may be stated that at the Paris Exposition out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while out of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals and twenty two silver medals—a proportion of

"A Complete Pictorial History of the Times."

"The best, cheapest, and most successful Family Paper in the Union."

Harper's Weekly.

Splendidly Illustrated,

Notices of the Press

The Model Newspaper of our country—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post*

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of their number. Its columns contain the finest collections of reading matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—*Boston Traveller*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone—Its reading matter is of a high order of literary merit, varied, instructive, entertaining and unexceptionable.—*N Y Sun*.

SUBSCRIPTIONS—1872.

Harper's Magazine

Notices of the Press

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead*

A repository of biography and history, literature, science and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N Y Standard*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation N Y*

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

"The best, cheapest, and most successful Family Paper in the Union."

Harper's Weekly.

Splendidly Illustrated,

Notices of the Press:

The Model Newspaper of our country.—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post.*

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of their number. Its columns contain the finest collections of reading-matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—*Boston Traveller.*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone—its reading-matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—*N. Y. Sun.*

SUBSCRIPTIONS.--1872.

TERMS.

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*

CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York.

GENTLEMEN:—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and undiminished responsibility, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

Yours very respectfully.

THE DUTCHMAN'S STRIKE.

A German, called Jacob, who had lately arrived in this country, got a situation in a planeing mill at a salary of $10 per week. Returning home one evening with one of the young hands of the mill (whom he called John), he told him that he got $15 per week.

"Vot?" cried Jake, "you vas got got fifteen tollars a veek? Tunder und plitzen! I vas so olt like you a coube of dimes, un I get me $10. How dot vas."

"Well," replied John "if you don't get enough you strike the boss for more."

"Vot you say? strike the boss for more? you dink I vas got more hier vages uf I strike the boss ain'd id?"

"Yes, I think that you would," replied John

"All ;eid," said Jacob.

So on Monday morning Jacob went to work as usual; but instead of entering the shop he took up his station by the door, and as the proprietor came down the street, Jacob stepped out in front of him and struck him with all his force, felling him to the ground, saying at the same time:

"Dare, I vas strike you for more hier vages, don't id?"

The proprietor bawled "police" with all his might, which had the effect of bringing an officer on the ground, and Jacob was arraigned for assault and battery. When the Mayor asked him what he had to say, he replied:

"Vell, ton't vas could find me out vot d matter vas id ... me mit ... vat York ... more vages higher ... vas ... st. se der poss he was come d sh ... strik n him for dot vages higher, and now I vas got here for salt and battery, I don't guite understand me dot."

During the laugh which followed the German was informed by the mayor that when he wanted to strike again, not to make such a striking demand, and his employer withdrawing the charge he vas discharged.

THE STEREOTYPED SMILE.

Beware of man or woman with a fixed smile. Trust the most hideous scowler before the being who goes about with an angelic grin carefully exhibited to all eyes under any and every circumstance. It is not natural to smile perpetually, and no one ever assumes a mask without being conscious of a necessity for concealment. Don't misunderstand me. There are young women, and a few old men, who break out into a smile whenever they speak. These are not the people I mean. The smile of which I warned you is a motionless, hypocritical, fixed expression, which I have seen worn during a silent three hours journey by rail, without the slightest alteration—that sort of a smile which most misguided lady artists present upon their canvas when they delineate martyrs, saints and angels. The portrait of a lady has a different smile — the fashion-plate simper—which, though semi-idiotic is not dangerous. Persons of no penetration allude to the chronic smile as "so sweet," and any one capable of holding the muscles of the face under control, is generally able to squeal sweetly, or move quietly, and to use quiet language, measured tones, in moments of the greatest excitement, and so can place a better man or woman at great disadvantage, and appear injured and innocent when actually most guilty.

TO MAKE COFFEE.—For four cups of nicely flavored coffee put two table-spoon-fulls of the ground berries into your coffee pot, and moisten with cold water. Pour on this as much hot water as you desire in bulk of coffee. Removing the lid of the boiling tea-kettle on the fire immediately place your coffee-pot upon the open vessel in twenty minutes you can have a delicious cup of coffee, clear as amber in which you have the full strength of the berry without the bitterness sometimes developed by boiling. It is well worth trying.

For a journey, the sole leather trunk is the best and the best that can be bought among them is the cheapest in the end. The purchaser has a trunk with the full thickness of the hide, which is a consideration in these days when baggage smashing has become such a success.

Newspaper borers must be invincible in Louisville. The *Courier Journal* says: "Unmoved by the deadly whir of the buzz saw erected for his extermination, the fiend who drops in to wrestle with the exchanges now spends most of his time in the editorial rooms. A scheme is on foot to have him blown from the end of a cannon."

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, ... the honor and power of the nation ... the world. ... past is the country's best pledge for the future. We believe the people will not entrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned and the American idea of an individual's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to ... with ... care the rights of ...

...

... parties ... profits ... two great scourges of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to day on a new march to victory.

Ayer's

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

W. F. BALLARD,
Major Commanding Battallion.

JUDGE STALLO, of Cincinnati, says of Mr. Greeley's logic "He has a form of syllogistic reasoning entirely his own, his syllogism consisting of a broad assertion of the thing to be proved as the major premise, a ringing imprecation as the minor, and a bold charge of venality or idiocy against his antagonist as the conclusion."

THE New York Tribune says now that Mr. Kernan 'sustained the war for the preservation of the Union.' But in 1864 the Tribune said he was an 'envenomed copperhead,' that he 'voted against most war measures, and when he did not venture to vote on that side, he cowardly dodged.'"

KERNAN making temperance speeches in one part of Illinois, and intemperance speeches in another part. He is about the finest specimen of an India-rubber politician that we have had in this section. But he can't stretch himself across the chasm of about 50,000 for Oglesby.—*St. Louis Democrat.*

HOW HAVE THE MIGHTY FALLEN.

The tidal wave has reached Vermilion county. In the Chicago *Times* of the 23d inst., will be seen an account of a meeting of Chappaquackers by the old wheel horse Democracy, Mr. John Donlon, of Danville, Ill., who is well known in Central Illinois, and is acknowledged as good authority, if not now, he certainly was in 1866 when the then grumblers, but now Greeleyites in our midst, were feasting Brick Pomeroy on dried oysters at their private residences in this city:

DANVILLE, Ill., Sept 17.—Permit me, for the first time this season, to trouble you with a communication. I feel it my duty to all citizens of this State who wish to perform an honest duty at the coming election, and I believe that all citizens, irrespective of party affiliation, are willing to perform what they consider correct for the continuance of a Democratic government in this country.

Yesterday the once Honorable Jas. C. Allen spoke to 145 mrle individuals, some from the other side of the State, near Indiana, and some boys. The actual count was 145, and if any person doubts this assertion I can prove it by a thoroughbred Democratic Greeleyite, who counted with me. Now, Mr. Editor, you and I, I think, can safely say that no man now living in this State has more ability than Jas. C. Allen. He knows how to make a Democratic speech. He tried to make one for Greeley yesterday, and failed. He would only say he would try him. The Democracy gave him the nomination for Governor of this State, and we gave him the nomination for Congressman vs. Logan, and I had the pleasure, as I considered it, to vote for him, both in the State convention that nominated him for both of the above-mentioned positions, and at the polls in my county on the respective days for the trial of his election. I still look upon him as one of the best political orators in our State. I yesterday sat and listened to him make, as he always can, what would be considered a good talk. But lo and behold! see him if you can as I saw him speaking to 145 men (and one-half of them Republican), after being dragged all the way from his home to this place by posters about two by three feet in size, thoroughly distributed all over the country, announcing his arrival in company with a fellow by the name of Bill O'Brien, that once disgraced our State by distributing blackguardism over it, as a seeker for the office of Congressman. His Irish dialect sounds very well for an Irishman (and I like it.) But when I compare that and the Presbyterian dialect they don't sound well together. I never did think that Irish blarney and Presbyterianism sounded well together. One may do well enough for shysterism, and the other will do to live and die by. Yours, JOHN DONLON.

BUCKALEW'S case is briefly but effectually disposed of by the Philadelphia North American, in this remark addressed to the Greeleyites of the Keystone State: "You have now in the field as candidate for Governor of Pennsylvania, a man proven by the rebel archives to have been in secret conference with duly commissioned rebel emissaries in Canada, at the time he was himself bound by the oath he had taken as United States Senator, to support, maintain, defend and adhere to the Constitution, Government, laws and national arms of the United States Government.

THE *Inter-Ocean* thinks the Hon. F. Hassaurek, of Cincinnati, must be gifted with claravoyance, insomuch as it received from him a printed copy of his late speech in advance of its delivery, from which it appears that applause was given forty-four times, great applause three times, laughter seven times, cheers six times, etc., up to the number of seventy expressions of satisfaction. If this plan of Mr. Hassaurek's was original we might be inclined to agree with the *Inter-Ocean*, but he borrowed it from George Francis Train who has been playing the same game for a half dozen years.

RAILROAD TUNNEL.—The contract for a tunnel from Third to Ninth street, in St. Louis, under Washington avenue, as an outlet from the bridge, has been awarded to Wm. L. Krainka, for the sum of $788,704. The work will be commenced without delay, and will be pushed forward as rapidly as possible. It is expected that it will be completed within a year.

THE New York *Independent* says of General Dix:

His nomination is equivalent to his election, and that, too, by a large majority. There are thousands of war Democrats in the State whose natural place is with the Republican party, and who, under the leadership of General Dix, will this fall give it their cordial support. This we regard as settling the question for Mr Greeley, so far as New York is concerned.

GREELEY has a special Pullman palace car to haul his chasm in. Whereupon the St. Louis *Democrat* remarks, that 'when Grant travels in a Pullman car the liberties of the country are in danger and despotism at our door."

HYPOCRISY.

DECATUR, ILL., Sept. 24, 1872.

MESSRS. EDITORS:—The consistency of the self styled reformers or Greeleyites recommends itself to the careful consideration of all voters at the coming elections. They cry out against fraud in the Republican party, when they are leagued together to practice it themselves. They charge the Republican party with the colonization of voters for the election of Gen. Grant, and are "caught in the attempt to carry the election by imported votes" themselves. They want civil service reform, and yet they are degrading it all the time. They are lightning on nepotism, and are found shoulder to shoulder in their efforts to get their friends into the best offices in the land. They have all along condemned the "franking privilege in the circulation of documents," and lately it has come to light that they have made use of this agency to a greater extent than ever known by any political party in the history of the country. Since the first of July they have sent out from Washington 1,333,000 documents under the frank of *reformers*, and at a cost of at least $50,000 to the government. This is the kind of reform this Greeleyite-Liberal Republican-Democratic coalition party wish the people to support this fall.

Gov. Brown, of Missouri, goes around over the country crying reform and economy, and pleading for peace, when it is a notorious fact that under the Republican rule, since the war in his State, the debt of the State was reduced twelve or thirteen million dollars, and since his inauguration the indebtedness of the State has been increased over a million of dollars. This is the game he plays—steals himself, or allows it to be done, and then accuses some Grant man in the State, who has no access to the treasury of the State, of doing the thieving. This is Greeley reform. If it is peace Gov. Brown wants, why in the name of justice and law does he not arrest some of the perpetrators of the recent outrages that have been committed in the southern and western portions of his own State? A number of murders and other minor outrages have been committed upon Republican citizens, and thus far no arrests have been made. If these scoundrels were to *accidentally kill* a sold-out Democrat, or a Liberal Greeleyite, would they not be arrested? Most assuredly. Why? That would be an outrage upon society, and the law must be vindicated.

Let Gov. Brown remain at home and see that the laws are respected and the *rights of all* protected, and then there will be some consistency to what he professes.—He says, again, if the colored people do not give up their separate organizations there will be a war of races, and they will be exterminated. What does he mean? Simply this and nothing more—that unless the colored people cease to vote the Republican ticket and join the Greeley party they shall be exterminated. Gov. Brown directly charges that "the Republican party are combining and consolidating the colored people into a separate organization for the purpose of opposing the white people, and taking away their rights," and reducing them as it were to a state of degradation. Gov. Brown knows this is an infamous falsehood. He knows, like every one else knows in the land, that it is the natural instinct of the colored man to love those who protect them best in their rights, and that liberty to them is as sweet as to the white man. Again, their good sense and keen distinction between Democracy and Republicanism will ever find them on the side of justice, reform, civilization and religion. A REPUBLICAN.

THE AGE OF PAPER.

In Boston now they advertise paper suits of clothes at sixty-two and a half cents a suit. This is cheap enough, though if a person wearing one of them should get caught in the rain, we imagine he would feel still cheaper. They ought to be cool and comfortable, especially if they are made of brown wrapping paper, but they would hardly keep their shape with the thermometer at ninety-five and one hundred. We are not informed what kind of paper they are made of, but they might be the means of disseminating a cheap literature; one could wear a small volume, so that he that runs could read. It would be economical to have the suits printed on both sides, so that they could be turned the second day, and a person could in this way wear a serial through the week, "to be continued" being stamped on the coat tail. On Sunday he could put on good clothes, with a sermon, or religious extracts from the secular papers, printed on them. There is no end to the variety in costume that can be attained in the use of paper, or to the good that can be done. Business men will come down to their offices in the morning in a suit of the morning daily, cool and fresh, and sure that they have the latest, because the telegraphic news will be on their backs. They will thus be the means of spreading information wherever they go to non-subscribers. Summer clothing will not hereafter get out style, but it will get out of date, for a man's old suit will be at once recognized. Instead of being pointed at as wearing old clothes, he will be noted as wearing old news. We are evidently only just in the beginning of our discoveries of the use of paper.—*Christian Union*

AN exchange says: "The straight-out Democrats of Bureau county, who are opposed to the Dolly Varden ticket already in the field, have issued a call for a convention at Princeton, on the 27th inst., to appoint a committee and nominate a Democratic county ticket. The call is signed by 292 Democrats of the county."

THE success that attended Johnson's swinging around the circle in 1866 has encouraged Greeley to attempt the same thing.

THE OIL WELLS TO BE SHUT DOWN.

ANOTHER MURDER IN CHICAGO.

The Great Fulton County Fair.

FROM ILLINOIS.

CHICAGO, Sept. 24.—Another cold blooded and unprovoked murder was committed here last night. James P. McWilliams, a young man about 18 years of age, employed as a compositor in the Times office, was shot and almost instantly killed, while walking along Clinton near Adam St., about midnight, with a companion, by one of four men to whom he had spoken civilly, and with whom they had no quarrel. The assassin and his companions escaped, and up to an early hour this morning they had eluded detection or arrest.

LATER.—Six stone-cutters have been arrested on suspicion of being the murderers of McWilliams last night. Feeling runs very high over the tragedy. The name of the young man charged with the murder of McWilliams, last night, is Thomas Collins.

CANTON, ILL., Sept. 24.—The Fulton County Fair opened this morning with every prospect of success. Up to seven o'clock 2,000 entries had been made. The rain this morning has put the track and grounds in splendid order. No dust, no mud.

The floral department is rapidly filling up, and the display is very fine.—The grain and vegetable department is unusually full. In the poultry department there are more entries than usual. Also in the cattle department there are some of the best herds in the State here. Hogs are also in great abundance, and, if possible, finer than usual. The horse show is fair, and includes some of the very best stock in the West. In nearly every department the display is equal to that of any preceding year. The citizens have made arrangements to extend accommodation for visitors, so that less trouble than usual may be expected on that score.

WASHINGTON, D. C., Sept. 24.—The Greeley managers here have news of a very lively time in the New York committee when Mr. Greeley gave the members to understand that he was going West. It now appears that the question was debated with much bitterness, and that nearly all of Mr. Greeley's personal friends who are attempting to manage the campaign for him were earnestly and most decidedly in opposition to his Western trip. On the other hand, it was a matter of comment among the class of opponents to the scheme, that those who made themselves most prominent in urging Greeley to make the journey were men who of late have been suspected of secretly desiring Mr. Greeley's defeat. To this latter class Greeley listened, and in spite of all that the others could do he declared that he would go, and intimated that he knew as much about what was good policy and proper management in the campaign as any one could tell him. His idea of the trip seemed to be that he would, through the medium of the Associated Press, which would, of course, be open to him, explain, not only to his audiences, but to the entire country, some matters that, as now before the country, were an injury to his prospects, and the two principal matters in mind to be smoothed over were his early secession ideas and his views in regard to currency and specie payment, which were doing him much damage among business men.

His attack on soldiers in Pittsburg is regarded among his chief managers in New York as, thus far, the greatest misfortune of the campaign, and the attempt at Cincinnati to explain his views about secession is little better.—One of Greeley's reasons for ignoring the advice of some friends, who insisted that he should not go West, was that he followed their commands and came out of Maine and out of New England much sooner than he desired, and he now feels that if he had been permitted to go over that State more thoroughly the result would have been much more favorable to his cause.

The great problem among his shrewdest friends in New York is, how to get him home the quickest, and keep him there, and keep him still the longest.—It is understood that there was only one majority in the New York committee in favor of Mr. Greeley's trip. Mr. Greeley's endorsement of the Credit Mobilier slander in his Indianapolis speech, has recalled here, this evening, his connection with one of the most extensive subsidy schemes ever pressed upon Congress. It was known as the Mediterranean and Oriental Steam Navigation Company of New York; was incorporated by that State, and sought a charter and subsidy of bonds, lands and contracts from Congress in 1869. Mr. Greeley was one of the corporators, a commissioner, and earnest supporter of the scheme.

FROM PENNSYLVANIA.

TITUSVILLE, Pa., Sept. 24.—The movement towards shutting down wells, and the suspension of drilling, so as to decrease the production of petroleum, which was agitated some weeks ago, and proved unsuccessful, was revived. Meetings are being held, resolutions are being passed, and organizations formed to this end. It it thought it will be successful. The production has reached over 18,000 barrels per day and increasing. This excessive supply has caused prices to decline so low that producing is unprofitable. To enchance the prices this movement is made. A large number of producing wells are already shut down.

FROM NEW YORK.

ALBANY, Sept. 24—At the National Convention of Machinists and blacksmiths in this city to-day, the following resolution was adopted:

Resolved, That some means be taken to secure the promotion of our members, so all may have an opportunity of a full and thorough theoretical and practical knowledge of our profession, and thereby raise the standard of intelligence among our brethren to secure a greater proficiency in every branch of the profession.

FROM OHIO.

CLEAVLAND, Sept. 24.—Horace Greeley and party arrived here this evening at 9:20 from Sandusky. They were received at the depot by the Greeley clubs of the city and escorted to Monumental Park, where Mr. Greeley and Gov. Walker of Virginia, addressed a large and enthusiastic meeting.

IN speaking of the progress of the campaign in Southern Illinois, the *New Era*, of Carbondale, says:

Railroad Commissioner and would-be-Governor Koerner, during his recent tour through this (Jackson) and adjoining counties, met with a cool reception; indeed, we believe that in this county alone he would have received a score more votes had he staid at home. His meeting in DuQuoin was a glorious fizzle, and so disheartened him, that, old office hunter as he is, he could not utter his abuse of Logan with half the vim he did in Murphysboro. Col. Don Morrison, who accompanied him, stirred up the handful of mourners who were present, and when he concluded proposed "three cheers for Greeley and Brown." About twenty-five men slowly swung their hats and gasped a faint "rah!" but it was so dismal that Morrison's ire was aroused, and in most insulting tones he cried out, "You buggars! If you don't vote any better than you cheer, we won't elect many in this period of the State this fall!" You are right for once, Morrison; your friends vote just about as enthusiastically as they cheer, and the result will be you "won't elect many in this part of the State this fall."

THE St. Louis *Globe* remarks that Greeley has gone to Kentucky in the desperate hope of carrying that State by his own personal magnetism. Oregon gone, North Carolina gone, West Virginia, Vermont, Maine, all gone, and Kentucky only remains. "Joseph is not, and Simeon is not, and now they will take Benjamin away."

"IF anybody attempts to haul down the American flag, bail him on the spot."—H. G.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the MOST PERFECT, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION. None genuine unless bearing their trade mark stamped on every frame.

THE DAILY REPUBLICAN will be delivered to subscribers in any part of the city, at *Twenty Cents per Week.*

Local Notices will be inserted at *Ten Cents* per line for the first insertion, and five cents per line for each subsequent insertion. Rates for time advertisements will be furnished upon application at the office.

TO DAILY SUBSCRIBERS.

Subscriptions to the DAILY REPUBLICAN will be collected every Saturday, at the places where the paper is delivered, unless otherwise ordered.

IMPORTANT.

We would be much obliged if our subscribers would inform the carrier at what particular place they desire their papers to be left.

CITY DEPARTMENT.

...Don't light the gas to-night.

...Bright is squeezing the juice out of the fruitful grape.

...The passenger train from the East is abouth three hours late to-day.

...The St. Nicholas omnibus has made the trip from the depot to the hotel and returned in ten minutes.

...We have heard of an accident caused by a railroad train, but we will wait for further particulars.

...Copies of yesterday's REPUBLICAN containing the appoinfments of the Conference, can be had by calling at this office.

...The ladies of the M. E. Church at Maroa, will give a sociable to-morrow evening, at the residence of Mrs. W. H. Austin.

...The city authorities have ordered a policeman to be at the depot on the arrival of each passenger train. That's right.

...Rev. M. Enur was appointed to Wapella instead of M. Powers, as printed in the list appointments.

...C. B. Cole, Esq., has sold his handsome pony to Mayor Shillabarger for a reasonable consideration.

...The High School bell has at last arrived, and is at present at the freight depot. It is said to weigh 1600 pounds.

...Last night the citizens of Decatur were deprived of gas light and the light of the countenances of many clergymen.

...It is reported the T., W. & W. Railroad will soon put on the Cincinnati express, a train which was discontinued when the travel fell off in the summer.

...Rev. Ira Emerson says the people round about Farmer City are some on big dinners. He expects to take up his abode there next week.

...Albert Emerson, Esq., a former well-known citizen of this county, has been nominated by the Republicans for County Superintendent of Schools, at Wichita, Kansas.

...A new Presiding Elder's District was created at the Conference just closed, called Pana district, with Rev. C. P. Baldwin, formerly of the Decatur district, as Presiding Elder.

...Many persons have examined a pair of glasses that we are compelled to wear temporarily, and all pronounce them to be the clearest and most agreeable to the eyes of any they have ever seen. Abbott keeps them.

...Rev. W. S. Prentice, Presiding Elder of Decatur district, is in the city regulating his preachers and familiarizing himself with the good people of this city. Dr. Prentice is an able preacher.

...A farmer, with a two horse wagon, came near running over a lady who was carrying a babe in her arms this forenoon, on one of the West Main street crossings. Hold tight reins at the crossings.

...At the political meeting in the school house at Forsyth last night a zealous friend of the cause of Liberalism interrupted Mr. Buckingham by saying out loud in meeting that he "came to hear about Greeley; can't you talk about him," which enthused Buckingham, and he made a good speech.

...As we could not get a correct copy of the list of appointments, we relied on the list jotted down as the Bishop read them, and Lovington was omitted from the Decatur district. Rev. I. N. Bandy was appointed to that place.

...We think Decatur ought to have a humane committee to prevent cruelty to animals. Other towns of smaller dimensions have them. Men come to town and hitch their horses and mules, and let them stand all day and a portion of the night without food or water. Such fellows get drunk, as a matter of course.

...In addition to the first premium in the sweepstakes for bulls, at the State Fair, awarded to "Baron Booth," imported and owned by J. H. Pickrell, of this county, Mr. P. took the following premiums:

Best cow, 3 years old and under 4 years, "Louan Hill," 1st premium.

Best cow over 4 years old, 2d premium.

Best heifer, one year and under two years, 1st premium.

...A company of German Tanners was formed at Springfield on Monday evening. The muster roll shows 140 names—all voters. It is expected that over two hundred members will be had before another week. And yet we are told that there are "only eleven Grant Germans in Sangamon county."

...From the *Magnet* we learn that an important agreement has been entered into between the Paris & Decatur and Mattoon, Sullivan & Decatur railroad companies, by which both roads are to come in on the same track from Mt. Zion. The track is to intersect the Illinois Central about a half mile below the Sangamon bridge. From there the trains of both roads will come up on the Central. The roads are to be completed by the 1st of December.

The Champaign, Monticello & Decatur railroad will also be completed to this city at an early day.

...Dr. J. H. Beidler, of Mt. Pulaski, called at our sanctum to-day. He is making an effort to have the Republicans of this city present at the great mass meeting at Mt. Pulaski on the 5th of October, at which Hon. John A. Logan will speak.—Dr. Beidler has always been a Democrat, but the nomination of Horace Greeley was too much for him, and now his text is: "How can a Democrat go for Greeley?" The Doctor will vote for Grant.

...The officiary of the First M. E. Church have leased the house of John Dunn on West Main street, between Edward and College streets, which is to be repaired and fitted up in good style, to be occupied by Rev. N. P. Heath.

Attempted Highway Robbery.—About quarter past eight o'clock last night as Mr. J. W. Shafford was going from his home to his office at the depot, when on Eldorado street, nearly opposite the site of the old City Hotel, he was attacked by two ruffians who were masked. They came out from behind an old stable in that vicinity and seized hold of Mr. Shafford, putting a sponge to his mouth to prevent him from giving an alarm while they went through his pocket; but they obtained nothing of value, except his hat! Fortunately, just before Mr. S. left his home on William street, he threw his pocket-book, containing $70, to his wife, who was lying in bed, being unwell; he also left his watch at home. Before he could give the alarm after the sponge had been removed from his mouth, the assailants had fled.

The attack on Mr. Shafford was probably encouraged by the fact that in his position he is often possessed with a considerable amount of money. Highway robbery in this city is on the increase. The attack on Mr. Bramble a few weeks since was similar to this one. It is hoped that these desperadoes will be arrested and made examples of, which will to a certain extent stop these lawless and fiendish attacks.

Would it not be well that extra policemen be appointed by the Mayor during the absence of gas light upon our streets?

They were Three in All.—Last night we accidentally fell in company with three gentlemen who are zealous in their efforts to place Mr. Greeley in the Presidential chair, viz: Hon. I. A. Buckingham, Lawyer Eldridge and Prof. O. F. McKim. These orators got off the train at Forsyth. Flaming announcements of their coming did not effect even the organization of a reception committee of one. No music greeted their ears—no shouts for Greeley were heard. A great mass meeting, great enthusiasm—without the masses and with no one to enthuse—the speakers stood alone, and when asked to explain about the reception committee, Mr. Buckingham replied that the speakers were not expected on that train. But it is fair to presume that Buckingham made a good speech, as usual.

Mass Meeting.—The Tanners were out last night, and Blue Mound was in her glory. Hon. W. T. Moffett and L. F. Mazzy, Esq, made speeches in a large hall that was arranged for the puspose. After listening to good speeches the crowd dispersed by throwing fire balls high in the air.

An Owner Wanted.—A full fledged bustle, with springs and straps all complete, was picked up from the pavement yesterday afternoon. Some lady from abroad must have dropped it, as our ladies don't wear such things. Of course not.—They wear Harper's Bazaar, so as always to be in fashion.

Welcome.—The new pastors of the First M. E. Church and Stapp's Chapel, Revs. N. P. Heath, formerly of the Centenary M. E. Church, Jacksonville, and Rev. Wm. Stevenson, formerly of Carlinville, are welcomed by the people. It is gratifying to know that that the Methodist pulpits of this city have been supplied with men who are able and acceptable preachers. Neither are they lacking in their social and business qualifications. We presume they will fill their respective pulpits next Sunday.

Attention, Co. B.—All members of company B, Tanners, are requested to meet at their headquarters on Merchant street, to-morrow, Thursday evening, Sept. 26th, for drill.

Struck by Ligtning.—A hay stack at Niantic was struck by lightning, which was set on fire and totally destroyed; the fence in the vicinity of the stack was also burned, last night.

Meeting at Mt. Zion.—Last night C. C. McComas, Esq., made a political speech at Mt. Zion to a large audience.—The people in that vicinity are unanimous for the election of Grant and Wilson.

Personal.—Mrs. W. Merrill returned from the East last night, which accounts for the presence of Wm. Merrill in this city yesterday.

Grand Rally.—The mounted Tanners of this city, and all others who can procure horses, are requested to be present at the meeting at Macon to-morrow night, at which Gen. J. H. Moore will address the people. Extensive arrangements have been made for the occasion.

THE Hon. Sidney Breese, one of the Judges of the Supreme court of Illinois, heads the ticket of the straight-out Democrats of this state. Mr. Breese is one of the most generally respected men in the state, and, while Oglesby is certain to get a majority of the people's votes, the remaining vote will tend toward Breese rather than Koerner.

THE Dutch families among the Catskills are said to have the fashion of preparing their own grave clothes. As there are yet several weeks before November, we commend this idea to the Greeley managers.

To the Voters of Macon and De-Witt:—I am an independent People's Candidate for the Legislature at the coming election. For particulars and reasons, see the Pamphlet—Political Facts and Astonishing Figures for the People—to be had at the book stores, and at the Agricultural Store west of the new square. The Party Candidates are invitep, at any time and place they may mention, to discuss in public the following resolution:

Resolved, That the political parties have been a great damage to this country, and now are only striving for "victory and the spoils," regardless of the interests of the people.

Ayer's

Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

The First Gold Medal!

For American Pianos, by the UNANIMOUS VERDICT of the International Jury, and placed at the head of all others—the United States not being represented among the jurors.

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals, (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*

JUST OUT!

Great Improvement IN THE

WHEELER & WILSON

Sewing Machine.

[TRADE]

[MARK.]

Buy it because it will do better work in one-fourth less time than any other machine, and because as recently improved it is much easier learned than any other.

No Change of Tension

Necessary in sewing different thicknesses. Neither the threads nor the cloth require holding. Seams are crossed with ease and the work guided with scarce an effort.

The Wheeler & Wilson

Has no under tension to manage, every point can be tightened ... fully adjusted ... very easy, does nearly double the ... power, and is the handsomest and best constructed machine before the public.

OVER 550,000

Have been Manufactured.

100,000 MORE
